

EXPRESSIONS OF INTEREST

End of Life Directions for Aged Care (ELDAC) is calling for expressions of interest from aged care service providers who wish to develop palliative care and advance care planning activities within their organisation.

Community and residential aged care services are invited to enrol as participating sites in this exciting palliative care and advance care planning initiative.

There is no cost to participating aged care providers, registered to work with the ELDAC team of facilitators who will assist and support your service to:

- Develop, implement and sustain palliative care and advance care planning objectives
- Build capacity to provide care for older people nearing the end of life
- Develop and/or strengthen linkages your service has with other care providers
- Improve initiatives in palliative care to align to the new Aged Care Standards.

Expected results from the initiative include improved capacity to provide end of life care; improved staff confidence, skills and knowledge about palliative care and advance care planning; and improved access to palliative care advice and support.

To find out more about how the facilitators can support you, please view the 'Sector Engagement' page at <https://www.eldac.com.au/tabid/4891/Default.aspx> on the ELDAC website, www.eldac.com.au.

This opportunity is limited, so register your interest or enquire for more information by emailing our facilitators on eldacteam1@qut.edu.au.
